Inspiration

- Magic-8 Ball
- How it works
 - Ask your question and shake it
 - The d20 will turn in the liquid and display an answer

The Problem: Automating the Fortune-Telling Experience

People enjoy the playful and mysterious nature of fortune-telling, but it's often limited to manual interaction

How can we bring this experience into the modern age, making it fully automated and hands-off, while still keeping it engaging and fun for users?

Oracle Orb Concept

- A fully automated, interactive fortune-telling robot
- Key Features:
 - Pivoting motion: Powered by a continuous rotation servo
 - LED Light Ring: Adds visual effects during operation
 - Motorized Cover: Conceals and reveals the LCD display
 - LCD Display: Shows randomized fortunes
